Rotary Club

BAY BREEZES - 10 JULY 2012

The President's Corner

Tuesday's meeting was speakerless, in a way. Given the numerous AOLs and "swallow" absences the numbers were a bit down but those of us present knocked around some very good ideas for increasing membership, locating projects and producing income. Some of these will be fleshed out at Board level and discussed further at our next business meeting. For my first meeting as President it was a very pleasant and productive evening.

There was one spot item I missed out for which I apologise. That was passing on our condolences to Natalie for the recent loss of her Aunt in Zimbabwe. Our sympathy Natalie.

We said goodbye to Rainer for a while. A couple of months back in Germany. Have a good trip and we shall see you on your return. The drinks always seem to taste better when you buy.

We look forward to the return next week of Ali and Athol Rice who will be jointly taking up the mantle of Club Services. Not a moment too soon.

I am hoping to have Jonathan Foster-Pedley come speak to us on Tuesday. Some of you will recall the couple of times he has spoken to us. He was previously creativity and design senior lecturer at University of Cape Town and now is Dean and Director of Henley Business School, South Africa and Professor of creativity, innovation and entrepreneurship at Namibia University of Science and Technology. A colourful and varied past which includes being a stunt pilot.

AG Tony Davidson has advised that DG Mike Oschse wishes to hold joint meetings with three clubs at a time. Date and venue will be advised as far in advance as possible but I would ask that we make a special effort for a good showing.

Yours in Rotary,

President Peter

Wheelchairs for those in need

Last week our club distributed 3 wheelchairs. Two in Hangberg and one in IY. The first picture is Andrew Abrahams fro Hangberg,he has lost all feeling below his waist, I left him with a smile from ear to ear. The third picture is a Mrs Johanna Williams from Hangberg who has been unable to move around for the last month,the middle picture is a Mrs Sanda Momwabisi who was very appreciative but in lots of pain, finding it difficult to smile.

Butch
